INTERNSHIP REPORT
ON

"Website for LEAF NOW"

Bachelor of Engineering

In
Computer Science and Engineering

Submitted by: PRASHANTHI K G (4KV18CS051)

KVG COLLEGE OF ENGINEERING SULLIA, DAKSHINA KANNADA.
2021

ABOUT THE COMPANY

IC Solution (ICS) is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At ICS, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

Development - We develop responsive, functional and super-fast websites.
We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.

Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.

Consultancy - We are here to provide you with expert advice on your design and development requirement.

Videos - We create a polished professional video that impresses your audience.

TABLE OF CONTENTS

OVERVIEW OF THE PROJECT

Project Name: Website for LEAF NOW

Team Members: PRASHANTHI K G

AISHWARYA N

HITHA U

SAHANA H M

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

Ever since industrialization started the care for plants has made it to our least priority list, Even though mankind requires plants to balance the food chain that he's a part of, but the plant enthusiasts are everywhere, be it big metropolitan cities or rural areas, so we aim to bring in a platform that can connect these plant/nature enthusiasts and help them exchange/sell them plants or donate seeds/plants as part of the green initiative that we started 2 years back.

The most important feature of LEAF NOW is connecting enthusiasts, which means that users should be able to create an account on the site and can start filling a form to submit their services, which will later be published by our team if it is genuine

The second feature is encouraging users to sell/buy/donate plants/seeds, by letting them know the importance of the same

The third important feature is the discussion page, set up a discussion page for the enthusiasts to start a discussion on topics that they like (optional)

ABOUT LEAF NOW

Trees provide us so much. It provides clean, fresh air, water, and food to us. Its greenery and freshness also soothe our mind and body. It gives a positive vibe in the atmosphere. Trees give shelter and cool sheds during summers and rainy seasons. Children develop good memory; patients recover easily, and much more. The fresh fruits and vegetables produced by trees help us in improving our eyesight and better growth of the body and brain. There is a lot more than trees provide us so that we can lead a better life.

Trees contribute to a rich healthy ecosystem. Animals, insects, birds, and fungi make their home in the trees and make a diverse ecosystem. This balanced environment, in turn, contributes to the betterment of human beings. Trees produce their own food and are found at the bottom of the food chain. They produce their own food through a process called photosynthesis and contribute significantly to the whole ecosystem. Further, trees are a rich source of medicines that are used to heal our diseases in a natural way as done Ayurveda.

Trees support many life forms. Birds make their nests, many reptiles, fungi, insects, and animals live on it.

Trees are selfless. They never ask for anything in return for the things they provide us. Several parts of trees, such as roots, leaves, stem, flower, seeds, are also edible.

Trees keep the balance in the ecosystem and ecology.

Why care for PLANTS has reduced

Deforestation is because of the reckless cutting of trees that our ecosystem is losing its balance. Human beings are becoming selfish day by day. The man is cutting down trees to establish livelihood, settlements, industries, and trades. Deforestation rates are surprising. It is not only causing a threat to the sustainability of the environment but also endangering wildlife.Day by day, the number of trees is decreasing because of human greed. This reckless cutting of trees should be reduced as soon as possible. Otherwise, the entire ecological system will suffer.

Trees are a precious gem for human beings. It is the most valuable gift from our mother nature. They should be properly cared for and looked after. They are a vital part of our lives and our environment. The reckless handling and brutal cutting of such a valuable resource clearly show how greedy and selfish humans have become. Making use of trees is reasonable, but exploiting them is not. It has become very important that we get alert about the harmful effects of deforestation.

Trees have a lot of importance in our lives, and it provides seamless service for the environment. we have somehow not protected them and perhaps that is why as on today we are being affected by global warming, severe pollution and other ill effects of deforestation. Trees should be treated and nurtured nicely so that human beings can survive on this planet. We should encourage others to plant more and more trees. It is for our own betterment and the sooner we understand this the better it is for us.

TOOLS USED

Software Requirements

- Visual Studio Code 2019.
- Google Chrome or Microsoft Edge of latest version.
- Front End: HTML, CSS, JS (optional)
- Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB of RAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).

IMPLEMENTATION

Source Code (index.html):

```html
<!DOCTYPE html>

IMPLEMENTATION

Source Code (script.js):

```javascript
let menu = document.querySelector('#menu-bar');
let navbar = document.querySelector('.navbar');
let header = document.querySelector('.header-3');
let scrollTop = document.querySelector('.scroll-top');

menu.addEventListener('click', () =>{
   menu.classList.toggle('fa-times');
   navbar.classList.toggle('active');
});

window.onscroll = () =>{

   menu.classList.remove('fa-times');
   navbar.classList.remove('active');

   if(window.scrollY > 250){
      header.classList.add('active');
   }else{
      header.classList.remove('active');
   }

   if(window.scrollY > 250){
      scrollTop.style.display = 'initial';
   }else{
      scrollTop.style.display = 'none';
   }

}
```

```
var swiper = new Swiper(".home-slider", {
    pagination: {
        el: ".swiper-pagination",
        clickable: true,
    },
    autoplay: {
        delay: 3000,
        disableOnInteraction: false,
    },
    loop:true,
});

let countDate = new Date('june 1, 2021 00:00:00').getTime();

function countDown(){

    let now = new Date().getTime();

    gap = countDate - now;

    let second = 1000;
    let minute = second * 60;
    let hour = minute * 60;
    let day = hour * 24;

    let d = Math.floor(gap / (day));
    let h = Math.floor((gap % (day)) / (hour));
    let m = Math.floor((gap % (hour)) / (minute));
    let s = Math.floor((gap % (minute)) / (second));

    document.getElementById('day').innerText = d;
    document.getElementById('hour').innerText = h;
    document.getElementById('minute').innerText = m;
```

```
document.getElementById('second').innerText = s;

}

setInterval(function(){
  countDown();
},1000)
```
